

Coming Summer 2009...

The 2nd Annual Nanotechnology Academy for North Dakota Students

Presented by

Two Days of Hands-on Modules

- **Photolithography**- Etch a design into a silicon wafer
- **Sense of Scale**- Acquire images 100x smaller than a human hair
- **MEMS Devices**- Activate tiny machines called MicroElectromechanical System Devices (MEMS)
- **MicroFluidic Device** – Fabricate a MicroFluidic Device

What you'll take home:

- MicroFluidic Mixer
- Etched Wafer
- MEMS T-shirt
- Jump Drive – including MEMS images, personal bunny suit p

\$25 Registration Fee

Skills & Technology Training Center (Fargo)

Center for NanoScience Technology Training (CNTT)

Early June – Dates TBD (Classes run 8:30 – 4:30)
